GREEN PAN[™]

GREEN PAN[™]

Hob Suitability:

Suitable for all cookers including Induction

Gas

Solid Hob

Ceramic

Halogen

Induction

Oven Safe Temperatures:

Up to 250°C

Washing:

Handwash

Recycled Elements:

Recycled stainless steel for the handles and recycled aluminium for the body, giving these a second life

Packaging:

Recycled

Manufacturers guarantee:

5 years for bodies and handles
5 years for ceramic coating

GreenPan™ products are designed for both high performance and convenience. Each of the ranges available has been created by an award winning designer!

GreenPan™ cookware is coated with THERMOLON™, an alternative to traditional non-stick coatings. This unique ceramic non-stick coating is **heat resistant up to 450°C (850°F)**, whereas traditional non-stick coatings are only heat resistant to 260°C (500°F).

The THERMOLON™ coating is **free from PTFE and manufactured without PFOA**, making it not just healthier, but more environmentally friendly than traditional non-stick coatings.

Each of the ranges of GreenPan™ cookware and its packaging consists of recycled elements*.

The manufacturing process is a lot more efficient than applying a traditional PTFE coating. This is because the coating is cured at a lower temperature, thereby **reducing the amount of carbon emissions**. This significantly reduces the carbon footprint of the cookware!

What's more - for every pan purchased, **Typhoon will plant a tree** in India to not only **help offset carbon emissions further**, but to provide farmers in India with crops and to build a livelihood for themselves and their family.

Vienna black aluminium is just one of a number of ranges available in the UK and Ireland, exclusively distributed by Typhoon.

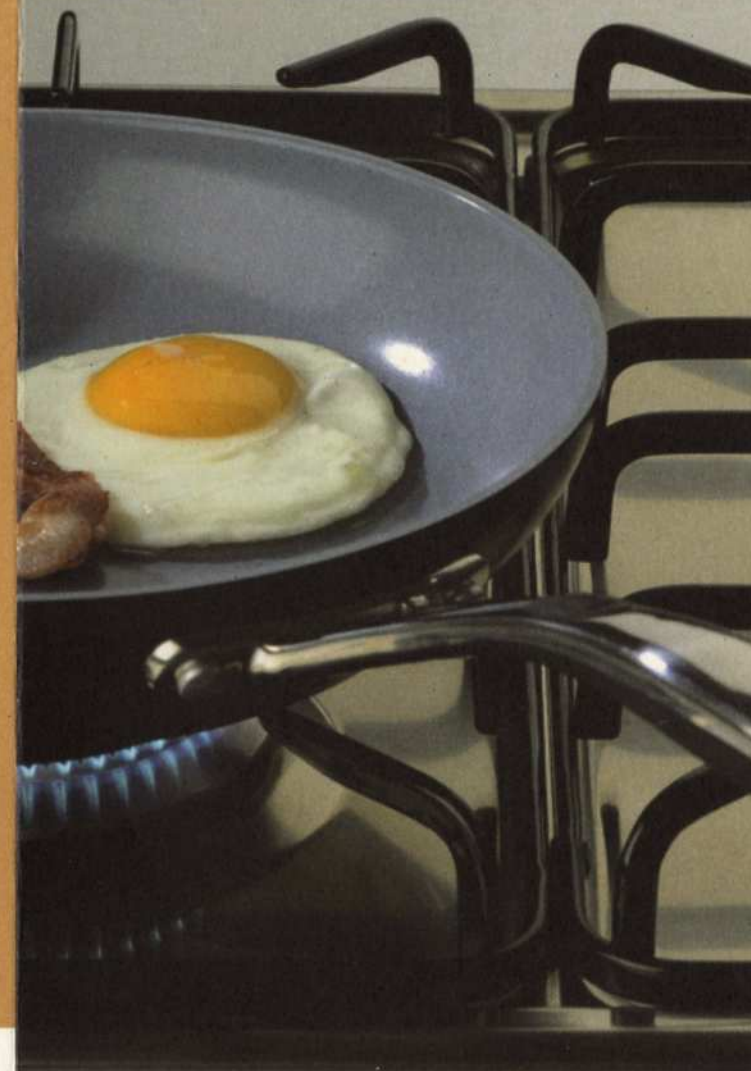

This leaflet is made of recycled paper.

*Recycled aluminium bodies consist of a minimum of 30% recycled material. Recycled stainless steel handles (Stockholm and Vienna Ranges) consist of 75% recycled material. The packaging contains recycled materials to a minimum of 40% for pan sleeves and 60% for gift boxes.

Vienna black aluminium
